MEMORANDUM FOR : Director of Logistics

SUBJECT : Request for Initiation of New Task Order under  
Contract 646, with [REDACTED]

25X1A5a1

25X1A5a1

1. The Office of ELINT presently has a number of developmental programs with [REDACTED], which will culminate in complex electronic equipments. The trend toward microminiaturization has been followed in the majority of cases resulting in the use of large quantities of [REDACTED] in the equipments.

25X1A5a1

2. [REDACTED]

and hence are not manufactured by other contractors. It is therefore important that a source of supply of standard and special design [REDACTED] components be available for future use. It is also necessary that a technical capability to handle such devices be available. For these reasons, [REDACTED] was requested to submit a cost proposal to cover the two areas of interest.

3. Proposal U123-CP64 has been reviewed by this Office and found to be acceptable. It is requested that a task order under Contract 646 be negotiated with [REDACTED], in accordance with Letter Proposal No. U123-CP64 dated 24 March 1964. This contract should not be construed to be a service type contract. The length of the contract will be determined by the time required to expend the allocated funds, but in no case will it extend beyond twelve months. The cognizant project engineer for this task is [REDACTED] extension 4518.
